

HOW TO SUBMIT YOUR PAPER TO FISAED

1. After completing registration, the author submitted a new submission

2. The author inputted the title on the FiSAED OJS Website

3. Choose one subtheme related to the topic of the paper

Frontier in Sustainable Agromaritime and Environmental Development Conference

← Back to Submissions

Section *

Submissions must be made to one of the journal's sections.

Science and technology for sustainable agromaritime

Socio-economic transformation for sustainable agromaritime

Sustainable natural resources and environmental management

One health ecosystems and society

Science and technology for sustainable agromaritime

This sub-theme is not limited to:

- Mechanical and Biosystem Engineering
- Food Science and Technology
- Agroindustrial Technology
- Civil and Environmental Engineering
- Mathematics and Natural Sciences

4. Check the submission checklist and privacy content before proceeding to the next step

Submission Checklist *

All submissions must meet the following requirements.

- This submission meets the requirements outlined in the [Author Guidelines](#).
- This submission has not been previously published, nor is it before another journal for consideration.
- All references have been checked for accuracy and completeness.
- All tables and figures have been numbered and labelled.
- Permission has been obtained to publish all photos, datasets and other material provided with this submission.

Yes, my submission meets all of these requirements.

Privacy Consent *

Yes, I agree to have my data collected and stored according to the

5. The authors input the abstract and keywords. Keywords should consist of up to 3-5 words

Submission Details

Please provide the following details to help us manage your submission in our system.

Title *

Effect of pH and Temperature on Enzyme Activity of Chitosanase Produced

Keywords

Keywords are typically one- to three-word phrases that are used to indicate the main topics of a submission.

Enzyme activity × Chitosan × pH × Temperature ×

Trichoderma spp. ×

Abstract *

B I x² x₂

Trichoderma strains were extensively studied as biocontrol agents due to their ability of producing hydrolytic enzymes, which are considered key enzymes

6. The abstract or full paper file must be uploaded to this section

7. Input all contributors' data that contribute to the research project until paper submission

Review and Submit

Review the information you have entered before you complete your submission. You can change any details displayed here by clicking the edit button at the top of each section.

Once you complete your submission, a member of our editorial team will be assigned to review it. Please ensure the details you have entered here are as accurate as possible.

Details [Edit](#)

Title
Effect of pH and Temperature on Enzyme Activity of Chitosanase Produced Under Solid Stated Fermentation by Trichoderma spp.

Keywords
Enzyme activity, Chitosan, pH, Temperature, Trichoderma spp.

Abstract
Trichoderma strains were extensively studied as biocontrol agents due to their ability of producing hydrolytic enzymes, which are considered key enzymes because they attack the insect exoskeleton allowing the fungi infection. The present work aimed to evaluate the ability of chitosanase production by

9. The submission has been completed

The screenshot shows a dark blue header with the text "Frontier in Sustainable Agromaritime and Environmental Development Conference" and a "Back to Submissions" link. The main content area is light blue and features a "Submission complete" heading. Below this, a white box contains a message: "The journal has been notified of your submission, and you've been emailed a confirmation for your records. Once the editor has reviewed the submission, they will contact you." It also lists actions: "Review this submission", "Create a new submission", and "Return to your dashboard".

10. The submission status can be seen on the author's homepage

The screenshot displays the "Submissions" section of an author's homepage. It includes tabs for "My Queue" (with a count of 1) and "Archived". A "Help" button is visible. The "My Assigned" section contains a search bar, "Filters", and "New Submission" buttons. A submission entry is shown with the ID "162", author "Ali et al.", and title "Effect of pH and Temperature on Enzyme Activity of Chitosanase Produced Under Solid Stat...". It includes a "Submission" button, a "View" button, and a dropdown menu.
