

# THEME

## “Contribution of Frontier Agromaritime toward Sustainable Development Goals”

### The Objective

The primary objective of proposing an international conference is to create a platform that fosters global cooperation, knowledge sharing, and problem-solving. Such conferences aim to bring together experts, researchers, policymakers, and stakeholders from various nations to engage in meaningful discussions and collaborations on a specific topic or theme of international significance. Through these gatherings, the proposal intends to facilitate the exchange of cutting-edge research, innovative ideas, and best practices, ultimately leading to the advancement of knowledge and the development of solutions to complex global challenges. Additionally, international conferences often serve as a diplomatic and networking opportunity, promoting cultural understanding, and building bridges between nations, furthering the cause of international peace, cooperation, and progress.

### The Participants

- Professionals
- Academics and Researchers
- Policymakers

### The Advantages

- Knowledge Exchange
- Networking
- Exposure to Innovation
- Policy Insight
- Professional Development

# THEME

## “Contribution of Frontier Agromaritime toward Sustainable Development Goals”

### Science and technology for sustainable agromaritime

- Mechanical and Biosystem Engineering
- Food Science and Technology
- Agroindustrial Technology
- Civil and Environmental Engineering
- Mathematics and Natural Sciences

### Socio-economic transformation for sustainable agromaritime

- Agribusiness and Management
- Agricultural Economics and Development
- Resource and Environmental Economics
- Family and Consumer Sciences
- Communication and Community Development

### Sustainable natural resources and environmental management

- Soil science and land resources
- Agronomy and Horticulture
- Plant Protection
- Landscape Architecture
- Fisheries and Marine Science
- Animal Science
- Forestry
- Environmental Science and Management
- Agrometeorology and Geophysics

### One health ecosystems and society

- Veterinary Medicine
- Human Medicine
- Biomedical Sciences
- Nutrition Sciences
- One Health
