

# How to Submit Your Paper to FiSAED

# HOW TO SUBMIT YOUR PAPER TO FISAED

## 1. After completing registration, the author submitted a new submission

The screenshot shows the website's header with the F&S&E logo and navigation menu (About, Archives, Editorial Team, Submissions, Payment Instruction, Contact). The main content area displays "Registration complete" with a message: "Thanks for registering! What would you like to do next?" and a list of links: View Submissions, Make a New Submission, Edit My Profile, and Continue Browsing. On the right, there is a "SUBMIT YOUR ABSTRACT" button and an "Important Dates" section showing a calendar for November 1-15 (Abstract Submission) and November 17-20 (START).

## 2. The author inputted the title on the FiSAED OJS Website

The screenshot shows the "Make a Submission" page. It includes a header with the conference name and a "Back to Submissions" link. The main content area is titled "Before you begin" and contains instructions: "Thank you for submitting to the Frontier in Sustainable Agromaritime and Environmental Development Conference. You will be asked to upload files, identify co-authors, and provide information such as the title and abstract. Please read our Submission Guidelines if you have not done so already. When filling out the forms, please provide as many details as possible in order to help our editors evaluate your work. Once you begin, you can save your submission and return to it later. You can review and correct any information before you submit it." Below this, there is a "Title \*" field with the text "Effect of pH and Temperature on Enzyme Activity of Chit" and icons for help, refresh, and a text input field.

### 3. Choose one subtheme related to the topic of the paper

Frontier in Sustainable Agromaritime and Environmental Development Conference

← Back to Submissions

**Section \***

Submissions must be made to one of the Journal's sections.

Science and technology for sustainable agromaritime

Socio-economic transformation for sustainable agromaritime

Sustainable natural resources and environmental management

One health ecosystems and society

**Science and technology for sustainable agromaritime**

This sub-theme is not limited to:

- Mechanical and Biosystem Engineering
- Food Science and Technology
- Agroindustrial Technology
- Civil and Environmental Engineering
- Mathematics and Natural Sciences

### 4. Check the submission checklist and privacy content before proceeding to the next step

Frontier in Sustainable Agromaritime and Environmental Development Conference

← Back to Submissions

**Submission Checklist \***

All submissions must meet the following requirements.

- This submission meets the requirements outlined in the [Author Guidelines](#).
- This submission has not been previously published, nor is it before another journal for consideration.
- All references have been checked for accuracy and completeness.
- All tables and figures have been numbered and labelled.
- Permission has been obtained to publish all photos, datasets and other material provided with this submission.

Yes, my submission meets all of these requirements.

**Privacy Consent \***

Yes, I agree to have my data collected and stored according to the

### 5. The authors input the abstract and keywords. Keywords should consist of up to 3-5 words

Frontier in Sustainable Agromaritime and Environmental Development Conference

1 Details — 2 Upload Files — 3 Contributors — 4 For the Editors — 5 Review

**Submission Details**

Please provide the following details to help us manage your submission in our system.

**Title \***

Effect of pH and Temperature on Enzyme Activity of Chitosanase Produced by

**Keywords**

Keywords are typically one- to three-word phrases that are used to indicate the main topics of a submission.

Enzyme activity × Chitosan × pH × Temperature ×

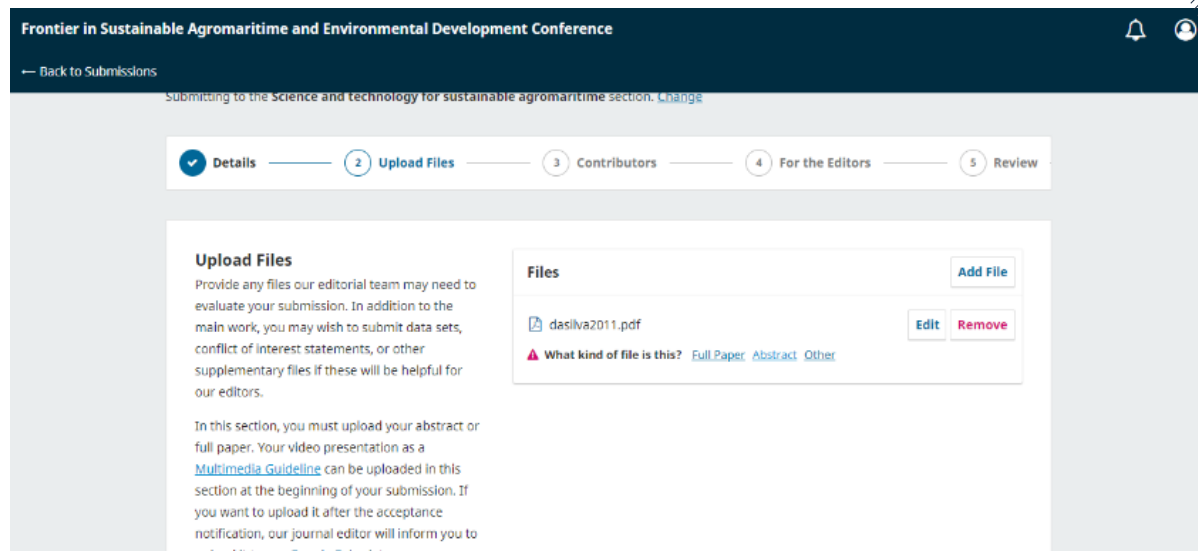

Trichoderma spp. ×

**Abstract \***

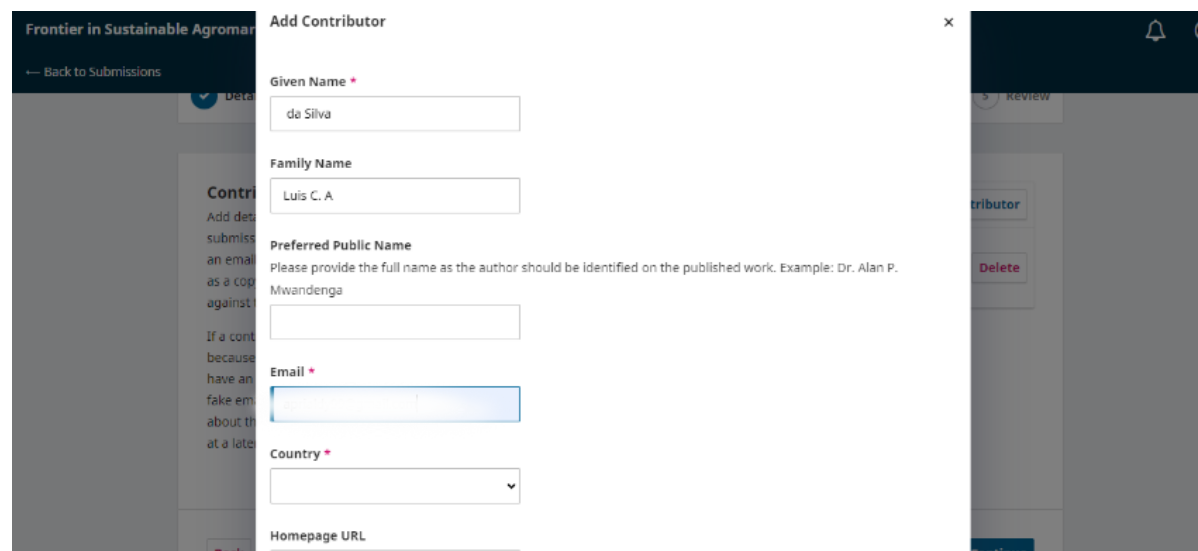

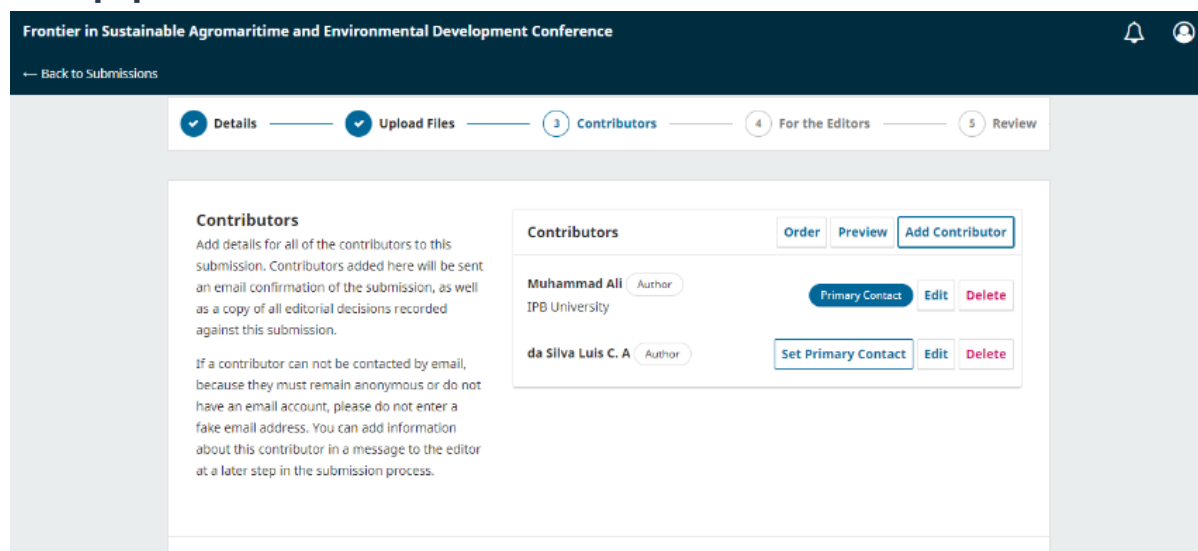

**B I x<sup>2</sup> x<sub>2</sub>**

*Trichoderma* strains were extensively studied as biocontrol agents due to their ability of producing hydrolytic enzymes, which are considered key enzymes

## 6. The abstract or full paper file must be uploaded to this section

## 7. Input all contributors' data that contribute to the research project until paper submission

Details Upload Files Contributors For the Editors **5 Review**

**Review and Submit**

Review the information you have entered before you complete your submission. You can change any details displayed here by clicking the edit button at the top of each section.

Once you complete your submission, a member of our editorial team will be assigned to review it. Please ensure the details you have entered here are as accurate as possible.

**Details** [Edit](#)

**Title**  
Effect of pH and Temperature on Enzyme Activity of Chitosanase Produced Under Solid Stated Fermentation by Trichoderma spp.

**Keywords**  
Enzyme activity, Chitosan, pH, Temperature, Trichoderma spp.

**Abstract**  
*Trichoderma* strains were extensively studied as biocontrol agents due to their ability of producing hydrolytic enzymes, which are considered key enzymes because they attack the insect exoskeleton allowing the fungi infection. The present work aimed to evaluate the ability of chitosanase production by

## 9. The submission has been completed

Frontier in Sustainable Agromaritime and Environmental Development Conference

— Back to Submissions

### Submission complete

The journal has been notified of your submission, and you've been emailed a confirmation for your records. Once the editor has reviewed the submission, they will contact you.

For now, you can:

- [Review this submission](#)
- [Create a new submission](#)
- [Return to your dashboard](#)

## 10. The submission status can be seen on the author's homepage
