

# WELCOME SPEECH

**drh. Mokhamad Fakhru Ulum, M.Si., Ph.D.**  
Chairman Committee

Distinguished guests,  
Esteemed speakers, presenters, and participants,

We raise our praise and gratitude to the Almighty for all His blessings, guidance, and grace that continually flow into our lives. I am genuinely honored to warmly welcome all of you at the "2023 Frontier in Sustainable Agromaritime and Environmental Development International Online Conference." As the Chairman of the FiSAED Committee, it is a pleasure to greet all of you, the agents of change, with a shared commitment to achieving the sustainable development goals. This remarkable gathering unites approximately 250 presenters from diverse corners of the world. Our collective mission resonates profoundly with the challenges and opportunities that confront us in these crucial fields. This conference will be held online for as long as two days, 14-15th December 2023. In addition, all papers accepted by the conference committee will be published in the IOP Conference Series: Earth and Environmental Science, which is indexed by Scopus.

The challenges in agromaritime and environmental development are vast and complex, transcending geographical

boundaries and necessitating global cooperation. This conference assembles experts, researchers, scholars, and practitioners from diverse backgrounds that bring a positive impact. This conference serves as a convergence of minds, ideas, and innovation. Presenters, each representing a unique perspective, will share groundbreaking research results and innovations across four pivotal sub-themes: science and technology, socio-economic transformation, sustainable natural resources, and one health ecosystem. These sub-themes encapsulate the breadth and depth of our commitment to sustainable agromaritime and environmental developments.

Organized by the Directorate of Strategic Study and Academic Reputation (DKaSRA) of IPB University, this event signifies a significant milestone in our shared commitment to addressing critical issues. Our committee, comprising 47 dedicated individuals from the academic community at IPB University, has worked tirelessly to organize this event, ensuring its success in the virtual realm. Divided into specialized divisions – an advisory committee, a scientific committee, and divisions for finance, secretary, marketing and public relations, advertising and website, and publication and documentation – our team has seamlessly collaborated to create an immersive and enriching experience for all participants.

My deepest gratitude goes to all the committee members for their unwavering commitment and hard work. I also express my sincere appreciation to DKaSRA for their continuous support and guidance, without which this conference would not have been possible. Additionally, I extend my heartfelt gratitude to each presenter, whose dedication to sharing insights and discoveries is vital to the success of this event.

In conclusion, I invite you to explore, discuss, and be inspired by the wealth of ideas and innovations promised at this conference. Together, let us chart new frontiers in sustainable agromaritime and environmental development.

Thank you.
